Description					

Description

Employer access to, and observation of, the personal Internet accounts of employees and applicants for employment; educational institution access to, and observation of, the personal Internet accounts of students and prospective students; landlord access to, and observation of, the personal Internet accounts of tenants and prospective tenants; and providing a penalty

Assumptions Used in Arriving at Fiscal Estimate

This bill regulates activity by employers, educational institutions and landlords as that activity relates to personal Internet accounts of employees, students and tenants.

This bill does not appear to impact the court system, except to the extent that there could be legal actions filed in the circuit courts to review administrative agency decisions. It is estimated to have no fiscal impact on the court system. Primary enforcement of the penalty provisions of the bill appear to reside with the Department of Workforce Development.

This bill may have an impact on local governments, and more particularly school districts and WTCS districts, which will be required to comply with the provisions of the bill. With the data available, it is not possible to estimate what, if any, that impact will be.

Long-Range Fiscal Implications
